Our entire services encompass comprehensive ranges of integrated logistics services:

- End-to-End Logistics and Supply Chain Solution
- International Freight Forwarding by Sea and Air
- Shipping Line Agency
- Container Depot Operations
- Inland Container Haulage
- Cross-border Transport
- Import and Export Customs Clearance
- Worldwide LCL Consolidation
- General Sales Agent for Airlines
- Airport Ground Services Handling
- Wholesale based International Air Freight Forwarder
- Express Delivery, Domestic and International Courier
- Warehousing Services for e-Fulfillment
- Nationwide Transport and Distribution
- Specialized Logistics for Hazardous Chemicals and Dangerous Goods
- Bulk Liquid Transport (ISO-Tank Containers and Flexi-tanks)
- Complete Dangerous Goods Packaging Solution
- Biomedical and Temperature Sensitive Packaging Solution
- Training and Consultancy

Our business portfolio is divided into 4 Business Units as follows:

AIR FREIGHT BUSINESS

- Wholesale Air Freight Forwarder
- General Sales Agent (GSA) for Airlines
- Airport Cargo Terminal

SEA FREIGHT & INLAND TRANSPORT BUSINESS

- Shipping Line Agencies
- Worldwide LCL Consolidation Service
- Inland Container Transport

LOGISTICS MANAGEMENT BUSINESS

- International Logistics Service
- Warehouse and Distribution
- End-to-end e-Fulfillment Solution

CHEMICAL & SPECIALTY LOGISTICS

- Hazardous and Dangerous Goods Logistics Integrator
- Specialized DG Warehouse and Distribution
- Dangerous Goods Packaging Solution Provider

... the **RIGHT** solution, the **RIGHT** partner

SEAFREIGHT SERVICES SPECIALIZED FOR DANGEROUS GOODS

Being DG Logistics Specialist over the decades with chemical industry recognition and reputation, **HazChem Logistics Management Co., Ltd.** offers the complete Seafreight Services specialized for Dangerous Goods based on following key strengths:-

- ◆ **DG expertise** in compliance with **IMDG Code Regulations**
- ◆ **Shipper's Declaration Services** for Dangerous Goods
- ◆ **Segregation and Load Validation** of Mixed DG Cargos
- ◆ **Full Container Load (FCL)** to and from any Locations Worldwide
- ◆ **Weekly DG LCL Consolidation** to Worldwide Destinations
- ◆ Integrated Services with **Customs Clearance and Transportation**
- ◆ In-house **Freight Management System**
- ◆ **Certified DG Specialists** for IMDG Code
- ◆ **Global Network** specialized in handling Dangerous Goods

DG LCL CONSOLIDATION

One of our leading strengths is the ability to provide DG LCL Consolidation on a weekly basis. This allows our customers to gain various logistics advantages in arranging small or partial shipments and easily help them expand into international market throughout the world. Many classes of Dangerous Goods could be accepted as LCL shipments covering a wide range of destinations such as Asia Pacific, Indian Subcontinent, Australia, Middle East, Europe, America and Latin America.

The mixed loading of Dangerous Goods into our weekly consolidation service is in compliance with the Stowage and Segregation Guidelines of IMDG Code.

DG COMPLIANCE TO IMDG CODE

Our certified team of DG Specialists is well trained and equipped with in-house technical knowledge and sophisticated computerized system to be always in full compliance with International Maritime Dangerous Goods Code (IMDG Code). The extensive scope covers:-

- ◆ General Provision
- ◆ Classification
- ◆ Dangerous Goods List, Special Provision and Exceptions
- ◆ Special Provisions and Exceptions
- ◆ Packing and Tank Provisions
- ◆ Consignment Procedures
 - Marking and Labelling of Packages Including IBCs
 - Placarding and Marking of Cargo Transport Units
 - Documentation
 - Special Provision
- ◆ Construction and Testing of Packagings
- ◆ Provisions Concerning Transport Operations

AIRFREIGHT SERVICES SPECIALIZED FOR DANGEROUS GOODS

Providing the speed advantage in shipping Dangerous Goods by Airfreight on the door-to-door or door-to-airport services by our certified DG specialists allows our customers to assure that their DG shipments shall arrive on the right time. Our complete Airfreight Services for Dangerous Goods are based on following key strengths:-

- ◆ **DG expertise** in compliance with **IATA DG Regulations**
- ◆ **Shipper's Declaration Services** for Dangerous Goods
- ◆ **Segregation** of Mixed DG Loading
- ◆ **Door-to-Door** and **Door-to-Airport** Services
- ◆ **DG Sample Management** Services
- ◆ **Packing and Re-packing** (UN Certified Packaging)
- ◆ **Tracking and Notification Report**

DG SAMPLE MANAGEMENT

To facilitate the DG and chemical samples to carry on and commercialize into international trade shipments, **HazChem Logistics Management Co., Ltd.** offers the DG Sample Management for all types of chemical samples, laboratory chemicals, R&D chemicals or even small portion DG shipments for chemical industry to outreach their prospective customers in the timely manner.

The integrated one stop services offered include customs clearance, pick-up and delivery, on-site packing and repacking, marking and labelling, dangerous goods declaration and documentation.

DG COMPLIANCE TO IATA DG Regulations / ICAO Technical Instructions

Our certified team of DG Specialists is well trained and equipped with in-house technical knowledge and sophisticated computerized system to be always in full compliance with IATA Dangerous Goods Regulations (IATA DGR) and ICAO Technical Instructions for the Safe Transport of Dangerous Goods by Air (ICAO TI). The extensive scope covers:-

- ◆ Classification and Identification of Dangerous Goods
- ◆ Special Provisions and Exceptions
- ◆ Packing Instructions
- ◆ State Variations and Operator Variations
- ◆ General Packing Requirements
- ◆ Particular Packing Requirements or Exceptions
- ◆ Packaging Specifications and Performance Tests
- ◆ Marking and Labelling
- ◆ Documentation
- ◆ Handling

ISO TANK CONTAINER SERVICES INTERNATIONAL BULK LIQUID TRANSPORT

As an exclusively appointed agent of **NICHICON : Nippon Concept Corporation (NCC)**, a leading Japanese Tank Operator, **HazChem Logistics Management Co., Ltd.** offers complete logistics solution for bulk liquid transport. The scope of services are:-

- ◆ ISO Tank Container for Bulk Liquid Transportation
- ◆ Cleaning, Maintenance, Repair and Depot Services
- ◆ Storage and Heating of Liquid Cargo
- ◆ Short Term and Long Term Lease for Domestic Operations
- ◆ Dedicated Operations for Sensitive Cargo
- ◆ In-land Haulage & Customs Clearance Services
- ◆ Global Network of Agents handling ISO Tank Containers

ISO TANK CONTAINER

ISO Tank Container is the international standard container facilitating the transport of Chemicals and Dangerous Goods in bulk for both liquids and solids. Its capacity ranges from 17,500 liters to 25,000 liters and offers the following benefits for the industrial users:-

- ◆ Ease of Use, Handling and Maintenance
- ◆ More Products Transport compared to Conventional Drums
- ◆ Long-term Repetitive Use
- ◆ No Need for Disposal Requirements of Used Packagings
- ◆ Safe Loading/Unloading for Intermodal Transport
- ◆ Unit Cost Saving and Efficient Distribution
- ◆ Suitable for Sensitive Cargo to prevent Contamination
- ◆ Equipped with Heating Capability

NICHICON

SPECIFICATION OF ISO TANK CONTAINERS

CAPACITY	17,500 Liters - 25,000 Liters
TARE WEIGHT	3.6 - 5 tons
SHELL THICKNESS	2 mm - 6 mm

- ◆ Chemical Risk Assessment
- ◆ Regulatory Framework on Chemical Management
- ◆ International Trade, Logistics and Supply Chain Management

THE OUTSOURCING SOLUTION OF DG WAREHOUSING

DG WAREHOUSE SERVICES SPECIALIZED FOR DANGEROUS GOODS

Various natures of Dangerous Goods and Hazardous Chemicals especially in the aspect of Warehousing are in principle very difficult to understand due to its complications in hazard classification, associated risks and exposure concerns, regulation enforcements of relevant competent authorities, safety and security requirements and compliance, needs of highly skillful labor, staff and human resources, warehouse management system (WMS) operations and emergency response preparedness. The capability to in-source these warehousing activities could be burdensome as well as time and cost consuming consequently leading to logistics inefficiency.

HazChem Logistics Management Co., Ltd. as the leading DG Logistics Integrator offers a breakthrough solution of these complexities by establishing and operating a number of dedicated DG warehouses which is in compliance with both international and local regulations, committed to safety and security excellence, operated by well-trained and experienced staff, set up with state-of-the-art WMS technology, covered with risk management programs and all types of insurances and capable to provide any other value added services.

Located at Ticon Logistics Park (T-Park), Bangna KM. 39, our DG warehouses serve as integrated logistics services center which offers our valuable customers not only for storage of raw materials and finished goods but also local and international distribution center, import and export planning center, cross-docking and repacking site and a logistics hub for other value added activities.

Some of our key strengths are highlighted below:-

- ◆ **International Standard DG Warehouses**
- ◆ **Strategic Location** in Ticon Logistics Park (Bangna KM. 39)
- ◆ **Licensed Warehouses** by Department of Industrial Works and Defence Industry Department
- ◆ Storage in **Several Compartments** installed with **Racking Storage System**
- ◆ **Air-Conditioned Storage** Compartment Available
- ◆ **Management System** in place for **DG Classification**
- ◆ **Safety and Security** Infrastructure and System in place
- ◆ **State-of-the-Art WMS** interfaced with ERP
- ◆ Operated by **Well-trained and Experienced Staff**
- ◆ Commitment to **High Quality, Safety and Security Excellence**
- ◆ **Internal EHSS Specialist** for Site Safety and Security
- ◆ **General Zones** and **Free Zones** Available

SAFETY AND SECURITY SYSTEM FOR DANGEROUS GOODS WAREHOUSES

The Safety and Fire Fighting System of Dangerous Goods Warehouses

According to our Environmental Health, Safety and Security (EHSS) policy, Safety is our topmost concern and is the first priority. The state-of-the-art infrastructure of our DG Warehouses is constructed in compliance with the international standard and local regulations enforced by the competent authorities. The safety and firefighting system as well as equipment includes:-

- ◆ **Firewall** for Fire Resistance
- ◆ **Fire Doors** Integrated into Firewall
- ◆ **Chemical Resistant Floor**
- ◆ **Raised Floor** for **Flood Prevention**
- ◆ **Loading Docks** with installed **Dock Levelers**
- ◆ **Emergency Exit Door**
- ◆ **Fireproof and Fire Resistant Roof**
- ◆ **Ventilation System**
- ◆ **Explosion-proof Lighting** and **Electrical Installation**
- ◆ **Lightning Conductor** and **Rod**
- ◆ **Fire Alarm, Smoke Detector, Smoke Beam Detector**
- ◆ **Fire Extinguisher and Fire Hose Cabinet**
- ◆ **Fire Sprinkler System** with Sufficient Water Supply
- ◆ **Fire Pump and Jockey Pump Room**
- ◆ **Containment** for Used Fire Fighting Water
- ◆ **On-site Personal Protective Equipment (PPE)**
- ◆ **Absorbent Material and Spillage Kit**
- ◆ **Medical First Aid Kit**
- ◆ **Eye Wash Station, Emergency Shower, and Safety Signs**

The Security System of Dangerous Goods Warehouses

Security is one of our primary concerns to prevent any undesirable threats. A number of security system and procedures are in place at all levels including the general visitors, drivers and even our staff to ensure the secured and safe site operations with proven records of in-and-out controls. The summary of security features are:-

- ◆ **24/7 Primary Main Gate Pass Control**
- ◆ **24/7 Secondary Gate Check** by Security Guard
- ◆ **Patrol Points** with Guard Tour Device
- ◆ **Security Procedures** for General Visitors and Drivers
- ◆ **Strict Rule Enforcement** for General Visitors and Drivers
- ◆ **Controlled Entry and Log Book** for Staff
- ◆ **Installation of CCTV** (closed-circuit television) System at All Operational Sites

ISO 9001: 2015

WAREHOUSE MANAGEMENT SYSTEM AND QUALIFIED HUMAN RESOURCES FOR DG WAREHOUSES

The State-of-the-Art Warehouse Management System

Through long years of DG Warehouse operations, the state-of-the-art Warehouse Management System (WMS) is a key to operational success. Our WMS is a full enterprise control over the comprehensive flow of inventory management. It is functionally rich and fully integrated application operated by wireless RF technology. In addition to normal day-to-day operations, it has also been further customized and enhanced to support the advanced and sophisticated warehousing operations and complicated storage requirements of Dangerous Goods, Hazardous Chemicals and Hazardous Substances. Here are some of the highlighted features:-

- ◆ **Full Enterprise Control** for Inventory Management
- ◆ **Multiple Warehouses/Sites** and **Multiple Clients** Support
- ◆ **Flexible and Fast Implementation**
- ◆ Built-in **Interface Modules** with ERP
- ◆ **Independent** between **Paper** and **RF** Modules
- ◆ Operational and **Customizable Reports** and **KPIs**
- ◆ **Integrated Documentation** over the Flow of Inventory Management
 - **Photos, Certificate of Analysis (COA) and Safety Data Sheet (SDS)**
 - **Non-conforming and Accident Reporting** with Photos
 - **Control of Storage Licenses and Reporting for Hazardous Substances**
- ◆ Preferred Zone Hierarchy (PZH) for **DG Segregation and Storage**
- ◆ **Tracking and Traceability** of Historical Movement
- ◆ **Web-based and Mobile-based** Inventory Report for 24/7 Visibility
- ◆ Reports generated as **Excel** for further **Data Analysis**

The Qualified Team of DG Logistics Experts

Operations of DG Warehouses requires a skillful and specialized team of DG Logistics Experts. **HazChem Logistics Management Co., Ltd.** strives to develop internal EHSS specialist and a group of well-trained and experienced operational team to handle the comprehensive flow of DG handling activities to and from our DG warehouses. Our qualified team of human resources is certified through:-

- ◆ **Regular Internal and External Trainings**
 - **Hazard Classification and Hazard Communication**
 - Understanding **DG and GHS Labels**
 - How to read **Safety Data Sheet (SDS)**
 - Use of **Personal Protective Equipment (PPE)**
 - **Medical First Aid Guide**
 - **Emergency Response Management System**
 - **Fire Fighting and Evacuation**
 - **Chemical Spill and Leakage**
 - **Emergency Response Drill at Different Levels**
 - **International and Local Regulations**
- ◆ **Screening Procedure for DG Acceptance for Storage**
- ◆ **DG Segregation and Storage Requirements**
- ◆ **In-house EHSS Specialist and Internal Regulatory Team**
- ◆ **Internal Staff and Driver's Training Profile**
- ◆ **Behavior Based Safety Programs**

ISO 9001 : 2015

TRANSPORT AND DISTRIBUTION

SPECIALIZED FOR DANGEROUS GOODS

HazChem TransManagement Co., Ltd. - The Quality and Safety Focused Transporter

The compliance of transport regulations of Dangerous Goods and Hazardous Substances is at increasingly high importance during recent years. The qualified and certified drivers as well as the high quality and standard of the transport and distribution trucks are the key elements of business success for transport and distribution of Dangerous Goods.

In order to improve the higher level of transport and distribution quality and safety standards, **HazChem TransManagement Co., Ltd.** has been established as in-house transport and distribution arm of HazChem Logistics Management Co., Ltd. to operate a dedicated fleet of closed box trucks (4/6/10 wheelers and trailer).

Followings are the key highlights for DG Transport and Distribution Services:-

- ◆ Dedicated Fleet of **Closed Box Trucks**
- ◆ Compliance with **Department of Land Transport and Department of Industrial Works**
- ◆ **Certified Driver License for DG**
